

Tuesday 5th March 2024

Dear Parents/Carers,

As part of our Design and Technology curriculum at Elmwood, children are encouraged to understand the impact of design and technology in their lives, as well as how the skills they are learning can be used in their future.

I am reaching out today to seek experts or passionate individuals in any field of design and technology:

- a) **Textiles** (interior designer, seamstress, fashion designer, prop maker)
- b) **Structures** (architect, construction manager, carpenter, welder)
- c) **Mechanisms** (machine operator, product designer, mechanic)
- d) **Electrical systems** (lighting technician, sound engineer, robotics engineer)
- e) **Cooking and nutrition** (chef, nutritionist, barista, farmer, restaurant worker)
- f) **Digital technology** (graphic designer, web developer, coding)

If you have any insight on any of the above topics, and you would be willing to answer a few questions about your career that would be very much appreciated.

Your answers to the questions will be shared with students to provide relevant, real-world examples linked to the strand they are studying.

Questions can be found by scanning this QR code or typing in the following link:

<https://forms.gle/gB6fQ8FiwFqtHsaB9>

Thank you in advance for your support in your child's learning.

Miss Ruzycki
